Save this number in your site response plan.

Make the first call count.

DETAILS TO HAVE READY

01 Site & contacts

Property name, full address, and caller and on-site contact phone numbers.

03 Authority & access

Authorized representative, entry instructions and work order, if available.

02 Loss & conditions

What happened, affected areas or systems, and current site conditions.

04 Immediate priorities

Response needs. For temporary power, critical systems and connection details.

Support across the loss.

NORTHSTAR CAPABILITIES

Temporary power & climate

Mobile power generation, heating, cooling and temporary lighting.

Environmental response

Biological and chemical remediation, asbestos and lead abatement.

Water, fire & contents

Water extraction, structural drying, fire restoration and contents protection.

Property recovery

Damage assessment, storm cleanup, demolition and reconstruction.

What happens next.

Operations coordinates the response. On site, NorthStar assesses the loss and plans mitigation with your authorized representative.
