

Recover the property. Protect the experience.

An integrated approach to hospitality recovery, from emergency response and remediation through reconstruction.

Conceptual architectural imagery.

Address the loss

Water, fire, and environmental conditions.

Coordinate the work

Remediation, demolition, and reconstruction.

Plan for continuity

Work around the needs of your hospitality operation.

One property. Multiple recovery needs.

NorthStar brings coordinated services to help protect assets and minimize business interruption as your property recovers.

01 / STABILIZE

Emergency response

Water and fire damage response, with services organized around the conditions at the property and its operational needs.

02 / REMEDIATE

Environmental services

Mold and biological remediation; asbestos, lead, and hazardous materials; infection control and biohazard services.

03 / RECOVER

Catastrophe response

Area-wide weather events and disasters, debris removal, and complex or selective structural demolition.

04 / REBUILD

Reconstruction

Building envelopes, interiors, reconfigurations, exterior improvements, site work, and roofing.

Keep the guest experience in view.

Define the recovery scope around property priorities, operating conditions, and the work needed to restore the asset.

Connect with NorthStar for hospitality recovery support.
