

DEMOLITION / QUICK FLYER

The structure changes. The plan keeps everything connected.

For owners preparing a site for renovation, redevelopment or closure, NorthStar brings structural demolition, selective removal and dismantlement into a coordinated scope.

Remove the right scope

Match structural demolition, dismantlement and concrete cutting to the buildings and components identified for removal.

Coordinate the interfaces

Bring retained assets, utility responsibilities, access and adjacent operations into the planning discussion.

Plan beyond removal

Connect abatement, recovery, recycling and site restoration to the owner's intended end condition.

No. 1

ENR 2025 · Demolition & Wrecking

A published measure of demolition scale.

NorthStar Group Services Inc. ranked first in ENR's 2025 category table, based on \$470.4 million in 2024 demolition and wrecking revenue. A revenue ranking, not a safety rating.

ENR, October 27, 2025 · p. 64
