Demolition & Wrecking

ENR's 2025 Top 20 firms

\$470.4 million
2024 category revenue

No. 8

Abatement / Environmental

ENR's 2025 Top 20 firms

\$59.5 million
2024 category revenue

Safety belongs in the work plan.

NorthStar's published safety program describes job safety analysis, supervision, training and task-specific controls. Discuss how those requirements will be applied to your site.

Plan the task

Job safety analyses and site-specific control requirements.

Address critical risks

Lockout/tagout and fall-protection planning.

Prepare supervision

OSHA 30-hour training and First Aid/CPR for supervisors.

Align the team

Line-of-sight supervision and subcontractor safety requirements.

PROJECT RECORD / SELECTED LEGACY RECOGNITION

Keep the proof connected to its context.

18,000+

project hours / 2022-2023

Mass General Hospital, Boston

NorthStar reports more than 18,000 hours without an OSHA recordable during the project’s demolition and abatement scope.

Company-reported project result, not a companywide safety rate.

Selected historical awards

Recognition listed in NorthStar’s published qualifications; original award years shown.

2010	Platinum Award Harvard University Contractor Safety Assessment Program / ConstructSecure
2007-2008	Outstanding Subcontractor Award Turner Construction
2007	Outstanding Safety Record Pentagon Renovation & Construction Program Office
2006-2007	Certificate of Excellence Sunoco
