

QUALIFICATIONS / QUICK FLYER

Different conditions. The right specialty at each stage.

A capital project, facility closure or property loss can involve more than one kind of work. NorthStar's service range connects the conversation while keeping specialist responsibilities clear.

COMPLEX PROPERTIES / HISTORIC-BUILDING WORK

Demolition & decommissioning

Structural and selective demolition, dismantlement, rigging, asset recovery, recycling and site restoration.

Abatement & environmental

Hazardous-material abatement, remediation, soil and water work, and specialized environmental scopes.

Response & nuclear

Facility response and nuclear decommissioning are distinct specialist engagements, each requiring its own technical scope and delivery team.
