

INDUSTRIAL / RECOVERY & READINESS

Recovery and renewal for complex industrial sites.

NorthStar Recovery connects incident response with NorthStar's environmental and demolition capabilities for complex industrial sites.

Understand the conditions

Bring available surveys, material information and site requirements into the scope before work begins.

Coordinate active interfaces

Plan work areas, access and handoffs with operations, maintenance and engineering around retained facilities.

Define the end condition

Connect environmental work and removal to the owner's requirements for recovery, transition or future use.

SERVICES TO SHAPE THE SCOPE

- Emergency recovery
- Hazardous-material abatement
- Selective demolition
- Environmental remediation
- Decontamination
- Facility decommissioning

RELEVANT EXPERIENCE

ProLogis / FedEx Facility | 2020

Across 1.15 million sq ft, demolition and remediation took 100 days. Full rebuilding was a separate scope.

Define the next stage with NorthStar.
